Year: 2016 Month: January - March

Energy Management Forum

The 14th Session of the Energy Management Forum (EMF) was held on 5th February 2016 at SLEMA Office.

At the EMF, Dr. Tilak Siyambalapitiya made a presentation on the discussion topic "Useful tips to write good, professional reports".

Dr. Siyambalapitiya making the presentation

In his presentation, Dr. Siyambalapitiya provided tips on writing professional reports and technical papers. He elaborated on types of reports and their structures, language that needs to be used and in general, how to write 'good reports' in 'good English'.

Despite the compelling short notice, the session was well attended. Due to the interest shown by the participants on the particular topic, the discussion session continued well into the fellowship which followed the EMF.

Members' fellowship at the end of the EMF

All SLEMA members are welcome to be a part of future Energy Management Forums. Date and theme of the next Energy Management Forum will be informed to the members through email.

Upcoming Events

Specialized Training Programme on Practical Applications of Boilers and Steam Engineering

SLEMA has scheduled to conduct a specialized training programme titled 'Practical Applications of Boilers and Steam Engineering' on 7th, 14th, 28th May and 4th June 2016 at Sri Lanka Institute of Development Administration (SLIDA).

Energy Management Forum

The next Energy Management Forum will be held on 13th May 2016 at SLEMA Office. Forum topic will be "Energy Management and Climate Change - A Global Perspective" presented by SLEMA Immediate Past President Mr. Nimal Perera.

Energy Management Training Programme

SLEMA has tentatively planned to conduct the five day Energy Management Training Programme from 16th to 20th May 2016 at SLIDA.

Annual Sessions and AGM 2016

SLEMA Annual Sessions will be held on 29th July 2016 at BMICH. "Energy Storage" will be the main theme for the sessions. AGM and Annual Dinner will be held at the Cinnamon Lakeside, Colombo.
